

## CARTONING MACHINES FOR ANY TYPE OF CARTON...

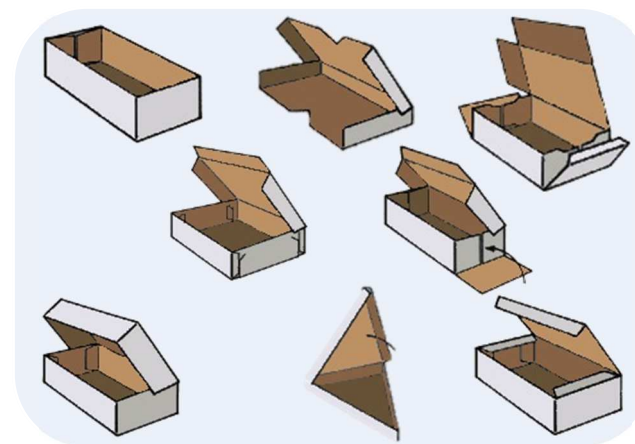

### HORIZONTAL END LOAD

These cartons are preglued during printing process. They are great for any application: frozen products, ready meals, cans, cookies, etc.

### VERTICAL END LOAD

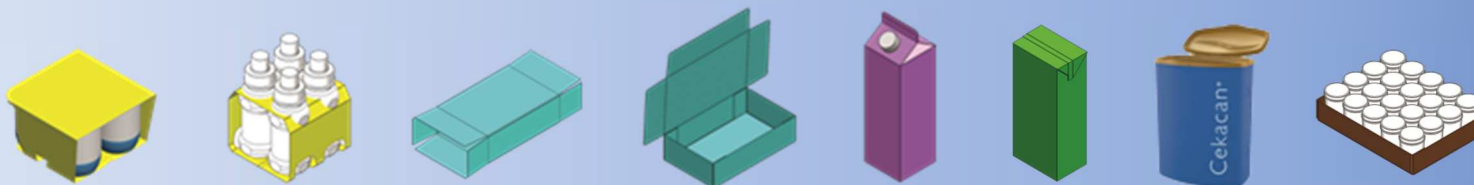

These cartons are preglued too during printing process. They are perfect for pharma or cosmetic products.

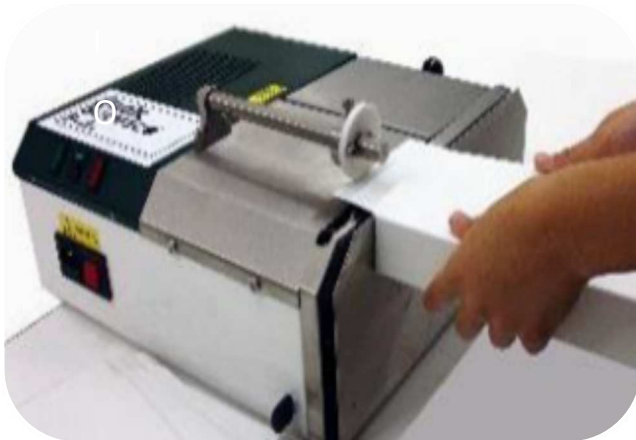

### TOP LOAD

These cartons start from a flat carton blank. They are suitable for high volumes and for production plants with no space problems.

## EXPERTS IN PACKAGING
